

## **UNIVERSITY OF NAIROBI**

### **EXTERNAL JOB VACANCIES (PROJECT POSITIONS)**

Applications are invited for the following position:

#### **PROJECT TECHNOLOGIST, USAID FEED THE FUTURE PROJECT, DEPARTMENT OF CLINICAL STUDIES - AD/3/37/22 - (1 POST) (RE-ADVERTISEMENT)**

##### **The Project**

The University of Nairobi, Washington State University and the International Livestock Research Institute recently received a Grant from the United States Aid for International Development (USAID) under the Feed the Future (FtF) to set up an Animal Health Innovation Lab. The Animal Health Innovation Lab will be based at the Department of Clinical Studies, Faculty of Veterinary Medicine, University of Nairobi. The Grant has a provision for ten (10) PhD scholarships and the successful candidates will register in various Departments of the University of Nairobi. In addition, there will be other MSc. students joining the project for their research work at different stages. The current area of research interest is East Coast fever (ECF) epidemiology, diagnosis, and impact on social, nutrition and economics of the communities. This is a five (5) year project with possibility of extension.

##### **The Position**

This is a full time position based at the Department of Clinical Studies, Faculty of Veterinary Medicine, University of Nairobi. It is a four (4) year position with a possibility of extension.

##### **Job specifications**

- The applicant should be a holder of Bachelor of Science degree in Medical Laboratory Technology or equivalent
- He or she must have at least two (2) years' working experience
- The applicant must be registered and retained with the Kenya Medical Laboratory Technicians and Technologists Board
- He or she should have experience in Molecular Diagnosis for the last one (1) year
- A candidate who has worked in an animal health laboratory will have an added advantage

##### **Job description**

Working directly under the supervision of the Principal Investigator, the Technologist shall undertake the following assignments:

- Participate in the day-to-day laboratory diagnosis activities
- Assist the PhD and MSc Fellows carry out their laboratory diagnosis activities

- Prepare requisitions for the procurement of laboratory supplies and reagents
- Keep an inventory of the laboratory supplies and reagents
- Maintain a database of all the diagnostic tests carried out in the laboratory
- Prepare monthly, quarterly, semi-annual and annual project reports on the number of diagnostic tests carried out
- Any other duties related to the project as may assigned by the Principal Investigator

### **Terms of appointment**

This a position whose tenure is one (1) year contract renewable based on performance and by mutual consent. An attractive package commensurate to the position and approved by the donor will be offered.

### **NOTES**

1. Applicants should email their application letters, certified copies of certificates and curriculum vitae (CV) giving details of their qualifications, experience and three (3) referees, as well as indicating their telephone and e-mail contacts.
